Test Cases — IRCTC Train Booking Website

Website under test: https://www.irctc.co.in
Modules: Login, Search, Booking Flow
Priority legend: P0 = Critical, P1 = High, P2 = Medium

ID	Module	Steps	Expected Result	Priority
TC-01	Login	1. Open https://www.irctc.co.in. 2. Click "LOGIN / REGISTER". 3. Enter valid username. 4. Enter valid password. 5. Click "SIGN IN".	User is logged in; username/initials shown in header; "Logout" option visible.	P0
TC-02	Login	1. Enter valid username. 2. Enter wrong password. 3. Click "SIGN IN".	Error shown: "Invalid username or password". User stays on login page.	P0
TC-03	Login	1. Leave username and password blank. 2. Click "SIGN IN".	Enter Valid Credentials; login blocked.	P1
TC-04	Login	1. Enter a username that does not exist. 2. Enter any password. 3. Click "SIGN IN".	Error shown: "Invalid username or password". Login blocked.	P1
TC-05	Login	1. Enter valid credentials. 2. Click "SIGN IN" repeatedly (double-click).	Only one login request is processed; no duplicate session/error.	P2
TC-06	Login	1. Click "Forgot Password / Forgot Username". 2. Enter registered email/mobile. 3. Submit.	OTP/reset link is sent to registered contact; confirmation message shown.	P1
TC-07	Login	1. Log in. 2. Leave the browser idle until session timeout. 3. Click "Book Ticket".	User is prompted to log in again (session expired message).	P2
TC-08	Search	1. Log in. 2. Enter valid "From" station (e.g., NEW DELHI). 3. Enter valid "To" station (e.g.,	List of trains with number, name, departure/arrival time,	P0

		MUMBAI CENTRAL). 4. Select a future date. 5. Select class "All Classes". 6. Click "Search".	duration, and availability is displayed.	
TC-09	Search	1. Enter same station in "From" and "To". 2. Click "Search".	Error: "Source and destination cannot be the same". Search blocked.	P0
TC-10	Search	1. Try to select a past date in the date picker.	Past dates are disabled / not selectable.	P1
TC-11	Search	1. Enter invalid station (e.g., "XYZABC").	Auto-suggest shows "No station found"; search not possible.	P1
TC-12	Search	1. Leave "From" or "To" empty. 2. Click "Search".	Validation: "Please enter source/destination station".	P1
TC-13	Search	1. Perform valid search. 2. Use "Sort by" (Departure / Arrival / Duration).	List re-orders correctly according to selected sort.	P2
TC-14	Search	1. Perform valid search. 2. Select class "Sleeper (SL)".	Only trains with SL class and their SL availability are shown.	P1
TC-15	Search	1. Search a route with no direct trains.	Message: "No trains found" / alternate suggestions shown.	P1
TC-16	Search	1. Select a date exactly at the edge of the booking window (e.g., 60 days ahead, ARP limit).	Trains are shown for the last valid date; dates beyond ARP are disabled.	P2
TC-17	Booking	1. Search a route. 2. Click "Book Now" on an available class.	User is taken to passenger details page; train/class/date carried over correctly.	P0
TC-18	Booking	1. On passenger page, leave Name/Age/Gender blank. 2. Click "Continue".	Validation errors for mandatory passenger fields; cannot proceed.	P0

TC-19	Booking	1. Add 6 passengers (max limit). 2. Try to add a 7th.	"Add Passenger" is disabled or shows max-limit message.	P1
TC-20	Booking	1. Enter age as "0" or "-5".	Validation: invalid age; cannot proceed.	P1
TC-21	Booking	1. Enter name with digits/special characters (e.g., "John123!").	Validation: name must contain alphabets only (or as per IRCTC rule).	P1
TC-22	Booking	1. Enter invalid mobile number (e.g., 5 digits). 2. Continue.	Validation: "Please enter a valid 10-digit mobile number".	P1
TC-23	Booking	1. Select a berth preference (e.g., Lower). 2. Continue.	Preference is accepted and shown in the booking summary (subject to availability).	P2
TC-24	Booking	1. Proceed to payment page. 2. Verify fare breakdown.	Total = base fare + reservation charge + GST + convenience fee (as applicable). Calculation correct.	P0
TC-25	Booking	1. On payment page, select a payment method. 2. Do NOT complete payment. 3. Wait / go back.	Booking not confirmed; seat released after timeout; user can retry.	P1
TC-26	Booking	1. Complete payment with a valid method (test/small amount).	Booking confirmed; PNR generated and shown; ticket appears in "My Transactions".	P0
TC-27	Booking	1. Complete a booking. 2. Open "My Transactions" / "Booked Ticket History".	New ticket listed with correct PNR, train, date, passenger names, and status.	P0
TC-28	Booking	1. Start booking. 2. Refresh browser on passenger page.	Form data retained or user warned before data loss; no duplicate booking created.	P1

TC-29	Booking	1. Complete booking. 2. Attempt cancellation (if allowed for that ticket).	Cancellation policy shown; refund calculated per rules; status changes to "Cancelled".	P1
TC-30	Booking	1. Attempt to book the same passenger/seat twice in quick succession (double submit).	Only one ticket is generated; second attempt blocked or shows duplicate warning.	P0
